```javascript
// Auto year in footer

document.getElementById('year').textContent = new Date().getFullYear();

const form = document.getElementById('admissionForm');

const preview = document.getElementById('preview');

const previewContent = document.getElementById('previewContent');

form.addEventListener('submit', (e) => {

e.preventDefault();

if (!form.checkValidity()) {

  form.reportValidity();

  return;

}

const fd = new FormData(form);

const data = {};

fd.forEach((value, key) => { data[key] = value; });
```

```
previewContent.textContent = JSON.stringify(data, null, 2);

preview.hidden = false;

alert("Application submitted successfully!");

});
```
